High Performance Car Tyre

## It's time for a change

Toyo Tires enables you to move better; our Japanese roots gives you the latest in mobility both on and off the road. But that's just the beginning. What Toyo really does is empower you to move confidently to new and bigger things, to make a change for the better. Just ask those who have. You see, tyres are not just a part of your vehicle. We believe that what you put on the outside of your car, matters to those on the inside. This is why we make **tyres for drivers**, not cars.

Make your *move*.

**TOYO TIRES®**

**Toyo Tires' Proxes Sport ultra-high-performance tyre has been reimagined**, with the very attributes that made it a perennial favourite amongst driving enthusiasts further honed to deliver an exhilarating driving experience, every time.

The very DNA of the Proxes Sport has been specifically engineered to deliver uncompromising grip in wet and dry, as well as shorter braking distances and dynamic handling to match the performance of modern, high-tech' sports and performance cars.

# Features & Benefits

## Stay Connected

Innovations in rubber compound technology allows Proxes Sport to deliver excellent grip, allowing absolute synergy between the driver, the car and the road

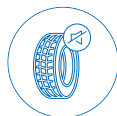

## Consistent Performer

Dynamic Taper Design maintains constantly high levels of grip, even as your tyre wears. Combined with a redesigned tread pattern offering greater stability, Proxes Sport delivers performance you can rely on throughout your tyre's life

## Engineered To Turn

Changes to the tyre's construction and architecture minimise tyre shift through cornering and allow load to be evenly distributed across the tread of the tyre, giving Proxes Sport a solid footprint

## The Quiet Achiever

You want tyres that fit your car, but also your lifestyle. Proxes Sport delivers outstanding performance without sacrificing in-car acoustics, all whilst delivering better fuel economy than other UHP tyres
