NanoEnergy 3

Fuel Efficient Touring Tyre

It's time for a change

Toyo Tires enables you to move better; our Japanese roots gives you the latest in mobility both on and off the road. But that's just the beginning. What Toyo really does is empower you to move confidently to new and bigger things, to make a change for the better. Just ask those who have. You see, tyres are not just a part of your vehicle. We believe that what you put on the outside of your car, matters to those on the inside. This is why we make **tyres for drivers**, not cars.

Make your *move*.

TOYO TIRES®

Save fuel without sacrificing performance on the **NanoEnergy 3**, a premium, long-wearing touring tyre that pushes technology forward to decrease rolling resistance, increase comfort and maintain grip for drivers who demand safety for themselves and the world around them. Using Nano Balance Technology to limit compromise in one area while pushing for improvements in all others, this eco-friendly touring tyre strikes the perfect balance between long life, high comfort and low fuel consumption with reliable traction to suit the daily demands of hatch back and sedan drivers.

Key driver benefits

- Comfort
- Value for money
- Tread life
- Low noise
- Fuel efficient

Suitable fitment

- Nissan Pulsar
- Honda Jazz & City
- Suzuki Swift

Features & Benefits

New tread compound with "Nano Balance Technology"

Improves wet weather grip and braking performance. Dry grip is also significantly improved. Improves fuel efficiency and providing longer tyre life

High stiffness/low weight casing construction

Low rolling resistance without compromising cornering grip and steering response

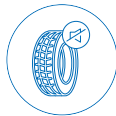

Non-directional, rib type tread pattern

Easy maintenance, low rolling resistance and minimised pattern noise

3D multi-wave sipes in tread shoulder blocks

Improved grip levels in low-grip surfaces while minimising tread-flex and irregular wear

"Silent Wall" serrations on walls of main circumferential grooves

NanoEnergy 3 has been designed to minimise tread pattern noise

Produced with Toyo's A.T.O.M production system

Exceptional uniformity for user comfort and easy installation

Related Product Comparison

In comparison to **NanoEnergy3**

Proxes C100 Plus

- ⬇ slightly less grip
- ⬆ more rolling resistance
- ⬇ slightly faster wear rate

Proxes C100 Plus SUV

- ⬇ slightly less grip
- ⬆ more rolling resistance
- ⬇ slightly faster wear rate
- ⬇ wear rate

Open Country A/T II

- ⬆ stronger off-road traction
- ⬆ more puncture resistance
- ⬇ increased road noise

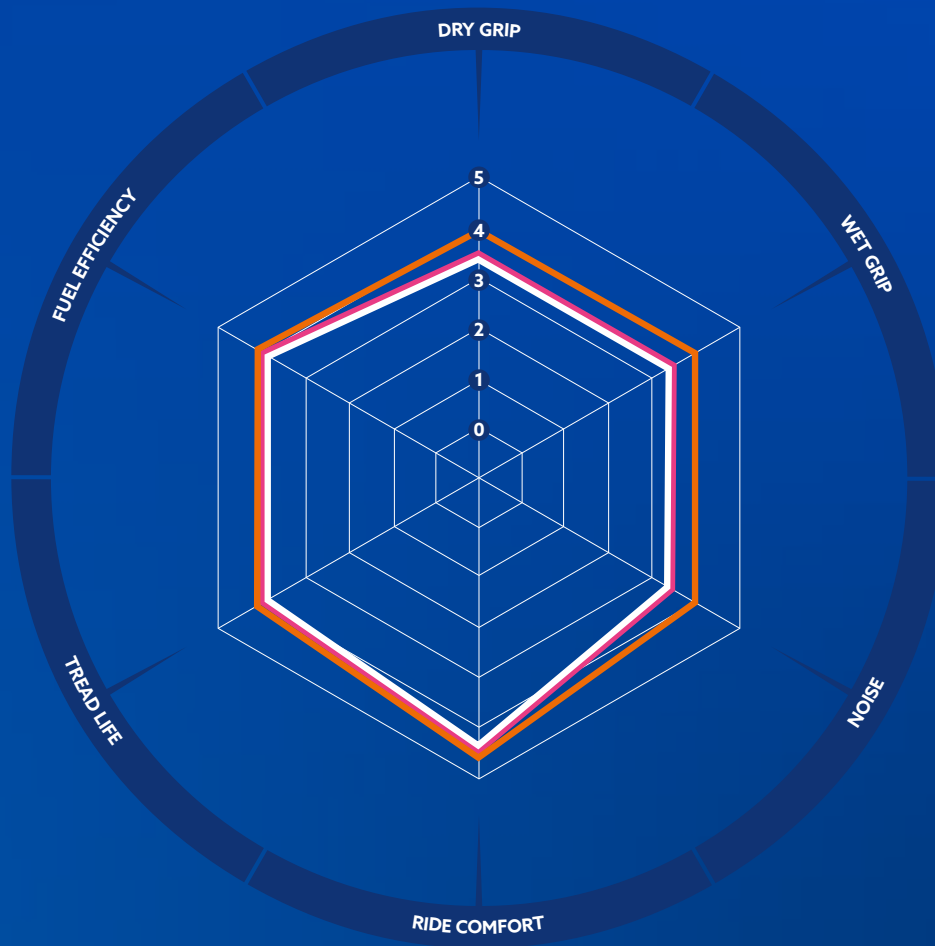

"In braking and slalom testing, Toyo have done a really good job on getting the NanoEnergy 3 to where it needs to be" – Jonathon Webb, Tekno Autosports
