M634

The **M634** from Toyo Tires is a regular-depth, highway traction, light truck tyre designed primarily for drive axle applications.

Featuring high levels of traction, excellent wear resistance, improved tread life and positive handling, the M634 also utilises Toyo's unique 'e-balance' design technology. This allows for a more even distribution of strain, resulting in improved tyre life, uniformity and endurance.

Steer axle - not recommended, drive axle - suitable, trailer - not recommended.
